# Akhand Pratap Singh

FRONTEND DEVELOPER

## Work Experience

Front-End Developer Intern 28 Jul 2022 - 28 Aug 2022

### JS SOLUTION PVT .Ltd

Completing a 1 month internship as a frontend developer in Delhi! Completing an internship is a great achievement, and it's a valuable step towards building your career in web development. Now that you have gained some practical experience.

Front-End Developer

2022 - 2023

### JS SOLUTION PVT .Ltd

- Implemented and maintained client side validation and error handling.
- Handled visual aspects of website design including layout, colors, and graphics.
- Worked with a team of developers to create websites.

## Projects

### Single web page Website

<https://citykanpur.netlify.app>

I have made website using html css and javascript and I have created a single page website in which we put a information about kanpur. If anyone opens this website then he can take the information about kanpur.

### Multiple web page Website

<https://lifelines.netlify.app>

I have made website using html css and javascript and I have created a website of multiple pages in which different web pages show a different content. If any one find about top colleges then college section show only the top colleges. If any one find about top Hospitals then Hospital section show only the top Hospital.

Developed a responsive layout that adjusts to fit various screen sizes, making the website accessible on desktop, laptop, tablet, and mobile devices

### Internet cafe Website

<https://internetcafe6.netlify.app>

I have made a website using html css and javascript and In this website we create different type of section. In this website we can create a different information in differrent sections.

### Portfolio Website

<https://iintro.netlify.app/>

Developed a professional portfolio website using modern web technologies to showcase skills, experience, and achievements in a clear and concise manner.

I worked on a Portfolio website that gives you all my info and experience. In which I have implemented HTML, CSS and JavaScript.

FRONTEND DEVELOPER

## Projects

### Responsive Filterable Gallery website

[responsivegalleryproject.netlify.app](https://responsivegalleryproject.netlify.app)

I made a filterable gallery website that show you all images which is uploaded by the user . In which I have implemented HTML, CSS.

Having a gallery with filter options can greatly enhance the user experience and make it easier for visitors to navigate through the content.
